### SUMMARY

Software Engineer with 4 years of experience in Javascript technologies (Back-end web development with Node.js and Front-end with React.js), good knowledge of Shopify e-commerce platform.

Learning new languages and technologies, especially JS-related, is what I am passionate about. Besides my ability to work well in a team, I can mentor tasks and review codes for fresh members.

### AREAS OF EXPERTISE

#### ❖ Programming Languages:

- JavaScript, Python 3.x
- HTML5, CSS3
- Java, C, C++

#### ❖ Platforms/ Frameworks/ Libraries:

- Shopify, Shopify Theme + APIs
- Node.js, React.js
- TypeScript, Express, Koa.js, Mongoose, JWT, GraphQL
- jQuery, Bootstrap, Tailwind CSS, SCSS, Semantic UI
- Flask (Python), Java Swing

#### ❖ Database:

- NoSQL (MongoDB)
- MS SQL Server

#### ❖ Version Control:

- Git (GitHub, Bitbucket)

#### ❖ Foreign Languages:

- English: TOEIC 830/990 at IIG Viet Nam

## WORKING EXPERIENCES

---

### Insights Studio

May 2021 - now

#### Project: Minimog - [Shopify Theme](#)

- **Description:** The Next Generation of highest-converting and extensible Shopify's theme that contains 50+ demos, mobile-first, and features rich! (Weekly Bestseller and Top Trending in eCommerce category)

Demo: <https://demo.minimog.co/>

- **Team size:** 3
- **Stack:**
  - Pure JS, SCSS + Tailwind CSS, Webpack, Liquid, Themekit, Shopify APIs
- **Position:** Frontend Developer
- **Responsibilities:**
  - Initialize and setup project base from scratch
  - Config build tool (Webpack + Tailwind Config), dev process and deployment (Github actions and Bitbucket Pipelines)
  - Implement lots of Sections in homepage (Header, Hero, Testimonials, Footer, Predictive Search, Mobile Mega Menu)
  - Build Cart Drawer
  - Incharge of Product page, Account Pages (Login/Register/Order), Wishlist page, Product Compare page
  - Build 7 layouts of Product page and many features: Sticky Add To Cart button, Product Options and Variant Swatch, Media Lightbox, Video + 3d Model media support, Product Bundle, Sale notification...
  - Build many reusable UI elements and function: Accordion, Tabs, Animate Loading bar, Event Emitter (PubSub), JSX component, i18n....
  - Build Collection Filter for Shopify Online Store 2.0
  - Interview and train new Engineers
  - Support customer with bug fixing and theme configuration
- **Accomplishments:**
  - Theme got Weekly Bestseller and Top Trending in eCommerce category
  - Good knowledge of Shopify platform, Shopify APIs, Shopify themes

**Project:** Fox Kit Shopify App - <https://apps.shopify.com/foxecom-boost-sales>

- **Description:** The upsells and boost conversion tools that is built to support Minimog theme
- **Team size:** 2
- **Stack:**
  - Front-end: Polaris + React
  - Back-end: Koa.js, JWT, MongoDB, Shopify-koa-auth
- **Position:** Backend Developer
- **Responsibilities:**
  - Initialize and setup project base from scratch
  - Incharge of Server side (API, Cookie base authentication, Shopify integration, Shopify APIs)
  - Config and setup HTTPS in local development with OpenSSL
  - Define Model, schema and Rest API for all App's plugins
  - Query and mutate Shopify resources with both Rest and GraphQL API (Assets, Metafields, Theme, Product, Collection, Shop data...)
  - Implement public APIs for querying Shop's data from Store Front
  - Create mechanism for calculating and mutating Cart
  - Create Draft Order to apply discount for custom Checkout
  - Working with Shopify Webhooks (GDPR webhooks and many other topics)
  - Create mechanism to install and update theme automatically
- **Accomplishments:**
  - Good knowledge of all server side stuff (APIs, authentication, Session, middleware, database...)
  - Good knowledge of Shopify platform, Shopify APIs, Shopify themes

**Coc Coc**

*May 2020 - Apr 2021 (11 Months)*

**Project:** Coc Coc's Newsfeed - <https://coccoc.com/webhp>

- **Description:** News for Coc Coc's user in Coc Coc new tab
- **Team size:** 3

- **Stack:**
  - Front-end: Pure JS, stylus
- **Position:** Frontend Developer
- **Responsibilities:**
  - Implement all UI parts (Markup, style, component, infinite loading, Feed's settings panel)
  - Discuss with Designer and backend team for choosing the best UI and data for newsfeed
  - Optimize performance and main newtab's widgets and addons
  - Build Search Box for Coc Coc's landing page (<https://coccoc.com/>)
- **Accomplishments:**
  - Good knowledge of Pure JS
  - Learn how to write clean, readable, and scalable code
  - Learn how to work with complicated codebase
  - Improve teamwork, communication skill and English skill

## Bravebits

*Aug 2018 - Apr 2020 (20 Months)*

**Project:** PageFly - Advanced Page Builder - <https://apps.shopify.com/pagefly> (Top 3 Page Builder app on Shopify)

- **Description:** Drag n drop page builder for conversion rate optimization, design and build responsive landing pages for Shopify's stores
- **Team size:** 8
- **Stack:**
  - Back-end: Node.js, Express, Redis, GraphQL, MongoDB
  - Front-end: ReactJS, React hooks, Unstated (State Management), GraphQL (Apollo), Styled Components, Webpack, ESLint, Jest
- **Position:** Full stack developer
- **Responsibilities:**
  - Research the possibility and implement new features (on both back-end and front-end) based on spec from UX team
  - Learn Shopify's development process, read Shopify's APIs, theme code, liquid code. Implement integration with 3rd party app
  - Develop APIs, UI modules and external library for the app

- Meeting with UX team and Dev team to understand users' requirements and define suitable feature's specification
- Directly support customers with technical issues (via live chat and skype call)

- **Accomplishments:**

- Good knowledge of Shopify platform
- Learn new technologies and frameworks
- Learn how to write clean, readable, and scalable code
- Learn how to work with legacy code
- Improve teamwork, communication skill and English skill

## Techkids Viet Nam

*May 2017 - Jul 2018 (14 months)*

**Project:** Love of Knowledge - <http://lok.vn>

- **Description:** CMS for LOK company
- **Team size:** 4
- **Position:** Front-end Developer
- **Responsibilities:**
  - Implement all Front-end design from PSD files to HTML, CSS
  - Working with Youtube API
  - Implement responsive UI (Mobile only)

**Project:** Room Finder

- **Description:** A mobile app for finding hotels or guesthouses in Ha Noi based on position, distance, price, or hotel's comforts
- **Team size:** 4
- **Position:** Back-end Developer (NodeJS + MongoDB)
- **Responsibilities:**
  - Design database schema, implement all back-end services
  - Document all APIs at <https://hta218.github.io/get-a-room-api-docs/>

**Project:** Check You In

- **Project Description:** A company internal web app (using MERN stack) for managing teacher's check-in, calculating monthly salary and sending them via Gmail
- **Team size:** 2
- **Position:** Full Stack Developer
- **Responsibilities:**
  - Design and implement basic UI components and user's flow
  - Design database schema and implement back-end services based on the requirements from team leader

## SIDE PROJECTS

---

- [Shopify Theme Starter](#) - Starter kit to build a Shopify Theme from scratch includes Webpack 5 and Tailwind CSS
- [Tiny retry](#) - A lightweight module (~0.5kb) to retry an async job until the job success or stop after a maximum number of tries
- [Slider-x](#) - Vanilla JS library for PageFly premium element - SlideShow
- [Nodejs Google APIs Starter](#) - NodeJS starter code for PageFly Analytics feature
- [Travel Egypt](#) - Picture puzzle game built with pygame (Python)
- [Infinite Gallery](#) - Infinite loading modal gallery
- [Store Manager](#) - Desktop store management app using Java Swing, JDBC, SQL Server

## EDUCATION

---

### Hanoi University of Science and Technology

Sep 2013 - Feb 2019

- ❖ Major: Electronics and Telecommunications
- ❖ Degree grade: Good

## PASTIMES AND ACTIVITIES

---

- Coding Instructor at [MindX Coding School](#) (aka Techkids), I teach Python fundamentals and Python web development ([Video](#))
- I'm keen on reading books, IT blogs, Medium and Quora
- I love outdoor activities (sport, swimming, ping-pong...)
- PES is my favorite game
